**OTHER OBSERVATIONS/COMMENTS:**  
 frequent small tile & ceramic fragments bound together. There are tiles covering this that appear to be a part of 17135, but Tiles underneath suggest it is part of the larger collapse event, 17137. We may equalize w/ 17137.

**INTERPRETATION:**  
 Cocciopesto paving that is possibly part of a large collapse event. Somewhat unclear as to the purpose was, which suggests that this is indeed part of a destruction event. We may equalize w/ 17137
