Related architectural features	DESCRIPTION: 1. WALL 2. NNW-SSE 3. opus quasi-reticulatum 4. white mortar 5. not excav. at this time 6. not excav. at this time 7. 118cm x 40cm; depth? 8. butted by wall 20006
CUT: 1. Shape in Plan 2. Top - BOS 3. Base - BOS 4. Sides 5. Orientation 6. Dimensions		

OTHER OBSERVATIONS/COMMENTS:
 opus reticulatum wall continues into area wall to east and may continue under pen tile filled w/ mortar and tile fragments (assoc. w/ restructuring of wall when wall 20006 was built to south). Concentration of pebbles and mortar cover wall (20012). Not clear if alignment parallels wall 20018 (= 17018)

INTERPRETATION:
 Appears to be an opus quasi-reticulatum wall originally in phase with op. ret. complex in 17000, although alignment a little suspect. Wall incorporated into a second phase of use, covered with concentration of pebbles and mortar and levelled w/ partile filled w/ mortar and tile frag.
