---	--	--

OTHER OBSERVATIONS/COMMENTS:
In angle of walls 20003 and 20046, large pan tiles were laid down to create a level surface with a raised edge of small squarish tiles bound w/ mortar. The tiles were fit precisely in the corner of the wall. No evidence of burning or repeated heating on tiles or surrounding soil.

INTERPRETATION:
 Possible corner hearth or water basin / tank?
 Based on relationships w/ walls Z0003 and Z0011, part of a later phase of use after the fire and collapse of central workshops in mid 1st c AD. Pottery from layers under feature are mixed w/ pieces of medieval ceramic.
