INTERPRETATION:

Wall associated with later phase of use built on top of 170018 and abutting 20019, built on top of 20067 = 20017.

Final course of squarish stones found in opt ret. walls visible underneath course of riverstones.

collapse of large riverstones found in 17000 assoc. w/ 17002 - could this be in phase w/ work shops?
