OTHER OBSERVATIONS/COMMENTS:
 July 10: only one course? Seems to be wider than 20017, destruction debris below.
 July 17: covering opus ret. 20067 and 20017, abutting 20042
 July 18: using large river stones and built over collapse material

INTERPRETATION:
 Built on top of opus ret. wall 20017, using it as foundation and resting on collapse (which was either cut into, or leveled for wall construction. Part of restructuring of site after fire? Seems to be associated w/ room to the east, west side of wall showed no signs of post-destruction occupation
