**INTERPRETATION/DISCUSSION:**  
 - originally interpreted as the foot print of a kiln (RPP kiln found a few meters to SE), but clarifying limits revealed that 17016 consists of a mix of bricks (along E limit) & wattle and daub covering plaster (facing? parent?). Now believed to represent the collapse of superstructure of wall 17020(?) or the ceiling of the portico (?). Possible to id lines of bricks(?) w/ mortar.
